

Caring for Climate

REFERENCE

February, 2014

Dear Mr. Jakub Wocik,

We wish to thank you and to recognize your vision and leadership in endorsing the *Caring for Climate* initiative. Izodom 2000 Polska is now part of the largest global business movement to address climate change, endorsed by over 350 companies from 60 countries.

The climate change crisis has risen to the top of the international agenda with growing public concern. Companies, local governments and countries have already recognized and are capitalizing on the benefits of moving towards low carbon, climate resilient and green economy pathways. With *Caring for Climate*, the UN Global Compact, the UN Environment Programme (UNEP) and the secretariat of the UN Framework Convention on Climate Change (UNFCCC) seek to (i) mobilize businesses on a global scale to take a stand for a low-carbon and climate resilient economy through their processes, products and services; as well as (ii) inform the climate change global policy agenda in order to contribute to progress in the intergovernmental climate change process.

Caring for Climate offers ongoing engagement opportunities for signatories, in particular through events, publications and collaborative action platforms. Further information on upcoming engagement opportunities can be found on the initiative's website at www.caringforclimate.org.

We welcome Izodom 2000 Polska to the *Caring for Climate* initiative and look forward to working with you.

Sincerely,
